Answer: (penalty regime: 0 %)

Reset answer

```
4
5 int Stack[MAX], top = -1;
6
7 int IsFull();
8 int IsEmpty();
9 void Push(int ele);
10 void Pop();
11 void Top();
12 void Display();
13
14 int main()
15 {
16     int ch, e;
17     do
18     {
19         scanf("%d", &ch);
20         switch(ch)
21         {
22             case 1:
23                 scanf("%d", &e);
24                 Push(e);
25                 break;
```
